There is something said, a whirlwind of voice  
Together, you said, but I have no choice  
Oh please, stay a while  
God I love your smile

I never felt alone, but here feels like hell  
When I'm on my own, you're all I feel  
Oh please, stay a while  
God I love your smile

I rat in a cage, a stone in a stream  
I float far away, I live in a dream  
Oh please, stay a while  
God I love your smile

And how 'bout that thing  
that you do when you're awake  
A laugh with a sting  
A bite from a snake  
Oh please, stay a while  
God I love your smile

(God I love your smile)  
(God I love your smile)  
(God I love your smile)  
(God I love your smile)
