I made tonight a memory
I can walk for miles and miles
I left a shadow at her feet
I can see her all alone
The night itself, a reverie
I can dream this out for a while
I keep her lost in lock and key
'Cause she's just my kind of style

She takes my hand and leads me in
It is not over
She sets the mood so I begin
And I walk over
She speaks a word to make me grin
Can I please have her?
We grab ahold to brace the end
This is what I am speaking of

I made tonight a memory
Yeah, you took me higher and higher
You make it hard for me to leave
But I'm coming back to you

She takes my hand and leads me in
It is not over
She sets the mood so I begin
And I walk over
She speaks a word to make me grin
Can I please have her?
We grab ahold to brace the end
This is what I am speaking of

I crawled my way back in your head
To hear you speak and dream again
To touch your lips from deep within
A bit like love, a heroin
I'll cross the grave and fight the bends
Carry you out when the world ends
I'll crash away, and lose you when
You're in my arms just like the wind

(It's not over, over, over)

(It's not over, over, over)

She takes my hand and leads me in
It is not over
She sets the mood so I begin
And I walk over
She speaks a word to make me grin
Can I please have her?
We grab ahold to brace the end
This is what I am speaking of

I crawled my way back in your head
To hear you speak and dream again
To touch your lips from deep within
A bit like love, a heroin
I'll cross the grave and fight the bends
Carry you out when the world ends
I'll crash away, and lose you when
You're in my arms just like the wind

I crawled my way back in your head
To hear you speak and dream again
To touch your lips from deep within
A bit like love, a heroin
I'll cross the grave and fight the bends
Carry you out when the world ends
I'll crash away, and lose you when
You're in my arms just like the wind
