Can you hear me out there? I can hear you
I got you, I can hear you over
I really feel strange
I wanna wish for something new

This is the scariest thing I've ever done in my life
Who do we think we are? Angels and Airwaves?
I'm gonna count down till 10:52
I can see the sun coming over the horizon

Can you hear me?
The one thing we're good at is destroying
Afterburn
I think you can blow them up and believe

I want to wish for something new
This could be big, it could destroy a nation
Burn 'em up
I'm coming along

Everyone, everyone will listen
Even if it hurts sometimes
If you will come and hear the message
Everyone wants to learn to love again

Open up and come alive
If you will can you hear my message?
Leave your pain on the bedroom floor again
Bring a smile to survive

And do you think that you have it in you?
If you're here and you're all alone tonight
Then I'll give you a free ride
Take a chance 'cause I know you want to

If only you'll hold on, just hold on
I'm here and I'm with you
I'm here too, I feel you
We'll get through, I know this, I've seen it

A hundred times, a thousand times
Just one more time

With you and I, I'll pull you close
And then we'll say goodbye

Go a lot, oh, hell of a lot to say
Even if it hurts sometimes
And if you will come and hear the message
Everyone, everyone will hope and pray

That the best will sure survive
And if it's true then you'll feel the message
A perfect life what a perfect brand new day
We're the next in line

And do you think that you have it in you?
So if you're here and your curious tonight
Then ill give you a free ride
Take a chance 'cause I know you want to

If only you'll hold on, just hold on
I'm here and I'm with you
I'm here too, I feel you
We'll get through, I know this, I've seen it

A hundred times, a thousand times
Just one more time
With you and I, I'll pull you close
And then we'll say goodbye

This is it
Who would've thought it would've turned out this way?
This is the closest thing to a mission I've known
I've never seen anything out here like this
Alright, I'm coming back around

It feels like we're moving faster
The thresholds about to give
We'll leave after the explosion
Who do we think we are? We're Angels and Airwaves
