[Intro: Talib Kweli]

Hey! How ya doin?

We all gonna be like a bunch of little Fonzie's

What's Fonzie? "He's COOOOL!"

Yup, meet Mr. International

On the runway more than a fashion show, y'know?

It's all love like McEnroe

But sorry I have to go - one more time yo!

Meet Mr. International

On the runway more than a fashion show, y'know?

It's all love like McEnroe

But sorry I have to go

[Chorus: Nigel Hall]

I've been so many places in my life and time

And I know, this fo' sho', I'm a life, that's worth living

I've seen a lot of faces made a lot of moves

I'm international, because of you

[repeat]

[Talib Kweli]

Yo

Let me introduce you to the Blacksmith crew, we makin'
money

Go to sleep with a dream and we wakin' up hungry

Its a new day stomach is rumblin' - oh well

I'm like Lloyd Banks, stumblin' out of the hotel

Overseas show I'm catchin' the last flight

Really need to go I'm hungover from last night

Out with Gina and MeLa Machinko, we get silly

Had a ball, 'bout to call a cab like Wet Willie's

When I'm in commuter traffic I'm never worried or
panicked

First class travel, I'm flyin' Virgin Atlantic

I'm already checked in, I'm ready to settle in

Going places I've never been, I get my Rosetta in

Rackin' up the sky miles and gettin' them upgrades

And you hate the only place that you visit is upstate

Don't be mad cause I'm writin' this rhyme on my iPad

Don't be sad cause tomorrow I'm catchin' the flight

back

[Chorus: Nigel Hall]

I've been so many places in my life and time
And I know, this fo' sho', I'm a life, that's worth living
I've seen a lot of faces made a lot of moves
I'm international, because of you

[Talib Kweli]

I'm a travellin' man, movin' through places space and
time
Think your life hard workin' at your 9 to 5
No matter what you do you can't imitate my grind
Twenty-four/seven love ain't that rough
When your career is you're passion no that ain't
enough
So when you hear me rappin' it's like I'm makin' love
Banging your eardrum, slingin' that good uhh, takin'
over the planet
You follow my footprints now you rollin' with the
greatest
I'm gettin' to know the neighbors I'm tastin' the local
flavors
Chicks from the ghetto were richer than portobello
My life is like a movie a novel by Paulo Coelho
Or the Steely Dan song about a bottle of Cuervo
Colombian Gold, take a hit for the road
It's given me a vision like I was lickin' a toad
Consider me so blessed like momma bakin' a cake
And the kids is lickin' the bowl, the illest stickin' to soul

[Chorus: Nigel Hall]

I've been so many places in my life and time
And I know, this fo' sho', I'm a life, that's worth living
I've seen a lot of faces made a lot of moves
I'm international, because of you
[repeat]

[Outro: Nigel Hall]

It's because of you
I'm international, yeah
Ooooh-ooooooh, ahhh ahhh ahhhhh
We're flyin high up above in the sky
The WIND on our wings.. {*fades out*}
