Can I get a church from the... ghetto
Can I get a church from the... ghetto
La la la la la la la, yeah

Girl you're outstanding
From the hips to your thighs,
It's splendid how you standing out
Girl you're outstanding,
So let's not waste no time
Let's get it girl cause tonight it's ours, yeah

While you walking everybody watching you closely
Hitting them high notes, nothing about you low key
Just let it register, body is unreal,
Was animated like Jessica...
2 wanna stab like a heart
Poneys do, just drive the drum and
Desert, your body like an oasis
The thirst is all real, you can see it all in they faces
Especially when you dropping oh, baby you gotta know
Girl you be killing them, filling them with all kind of
hopes
Dude on the block that be selling dope
By the shoes and the watch you can tell he's broke
So stop with the lies he telling for, you can see with a
telescope
Tell him bringing home and glasses up like Sara Pallin
knows
Love it in the club when the fellows go
But you hate that your hair gotta smell like smoke
They ask you what is hitting for
Nigga try to fix the prices, never dealt with chicks
before
You ain't got to licking license, do you down to live your
life
If dude is down to split this... how you like to master
active fly
Until you hit it right
Hey you girl with the tight upskirt,
In the back of the club where they light up purp
Known to drop it like a stripper, with her night off work

They make it rain and you stuffing dollars right in your,
purse

Girl you're outstanding
From the hips to your thighs,
It's splendid how you standing out
Girl you're outstanding,
So let's not waste no time
Let's get it girl cause tonight it's ours, yeah

You just looking for somebody that can fill in the spot
Fill in the blank yeah Shawty you've been sipping a lot
Filling the drink as the sips to your head
You a race your regrets
Throw another shot back as you race to forget
Yeah the night just started, we both parted from ex
love
Sleep won't make you forget him baby but sex does
Swear you ain't looking for no one night stand
But you prepared to risk it all for that one right man
Ask me, let's have a toast to your future
I know you belong to
Leave your ex in the past, don't let him haunt you
The last argument was world war 3, but follow me
I introduce you to that birge wazi
Talk is cheap, welcome to the all that show
You be my brigitte bardo, I'll be your... ball d
Do what you came for, let me get that car dope
Have you ever made love in the lambo gallardo?

Girl you're outstanding
From the hips to your thighs,
It's splendid how you standing out
Girl you're outstanding,
So let's not waste no time
Let's get it girl cause tonight it's ours, yeah.
