[Talib Kweli]

Yeah ... this is the best part of the trip
Hold on to something, hold on to something
We about to take the road less travelled
You ain't gotta go home, but you can't stay here
Let's go

[Kendra Ross (Talib Kweli)]

I get lonelier each time
You go away I lose my mind
I lay awake til you come and make things right (yeah
yeah)
I get lonelier each time you go away (cmon)
So baby won't you stay with me tonight? (yeah)

[Talib Kweli]

Check it out
There's this lady I'm in love with (yes there is)
Living inside this woman unknown
But she's scared to let it show
I know it sound like some bug shit (yeah it do)
It's just she come with
Hang-ups and
Insecurities they gotta go
She always nervous around me
But see this lady inside
She's ready to be my baby tonight
And ever since this lady found me
This woman think I'm dangerous
And ain't ready to put her safety aside
I try to tell her that I got her back
And no matter where we at
In our lives
I'll treat her like she my girl
I asked her "What's wrong with dat?" (What's wrong
with dat?)
She like "It just ain't right
There's so many more women and men in the world"
I have to admit the girl got a point (true)
Maybe my ambition's made to make me want

something I just can't have
So now it's time for me to blow this joint
I still know I'm in love
I just stay focused
And true to my path
Word

[Kendra Ross (Talib Kweli)]

I get lonelier each time
You go away I lose my mind
I lay awake til you come and make things right (yeah
yeah)
I get lonelier each time you go away (uhh)
So baby won't you stay with me tonight? (yeah yeah)

[Talib Kweli]

I got to get away
Ladies you ever felt growing away
By your man
Asking "Baby, won't you stay?"
He chilling with his crew
He should be building with you
He got you feeling the blues
Cause the children to glue
He willing to do
Whatever it takes
To save 'em
From a fate he can't see when he misbehaving

Brave men don't let they ladies
Raise they children theyself
You're so busy trying to save 'em
That you you're killing yourself
With the
Stress and strife
And the fights and the advice
From the ladies of the night
Who can't run they own life
Up in your air
Nothing is fair
Why do you care?
Why do you always take it there?
The crying, the tears
You ain't prepared for the jewels
That I'm trying to share
Flying there
Dying inside
Hot in the fear
The writing is clear
On the wall
For you to read the sign

Ayo the fine is the way we design
To be fine
But still ...

[Kendra Ross]

I get lonelier each time (I get so lonely)
You go away I lose my mind
I lay awake til you come and make things right
(mmmmmmm .. make it right, make it right, make it
right)
I get lonelier each time you go away (la la la la la la la
laaaa)
So baby won't you stay with me tonight?

[Talib Kweli]

Gotta go, I gotta go, I gotta go
Gotta go, I gotta go, I gotta go
Gotta go, I gotta go, I gotta go
Gotta, Gotta
Gotta go, I gotta go, I gotta go
Gotta go, I gotta go, I gotta go
Gotta go, I gotta go, I gotta go
Gotta, Gotta

Yo
You can tell when people wanna spend they life
together
Despite the weather
They treat each other like a treasure
Can't fight forever
You got to give it up
I ain't got a lot of time
We got to live it up
I make my music like I make my love
People use it like they take they drugs
In the morning
When they waking up
This music got me out late but
I holla at you when I'm done
Don't stay up
Will love play with us?
It sting like paper cuts
Doused in alcohol
But if it's real
They ain't no greater rush
I got faith in us
It's only you who really know me
I be surrounded by people
And still feel lonely

[Kendra Ross]

So baby won't you stay (why won't you stay?)
Baby won't you stay? (why won't you stay?)
Baby won't you stay with me tonight? (ohhhhh)
Stay with me tonight
Stay with me tonight
Ohhhhh
Cmon
