Why do you call me
Out of my dreams?
Is there a question
You want me to hear?

Here I stand before your throne
Knowing you can see my every need

Being near you
Stirred my feelings
There I approach you
Just as I am

Here I stand before your throne
Knowing you can see my every need
Here I stand before your throne
Help me to release my selfish thoughts
Lead me on

I can't set 'em down
I can't (can't) set 'em ('em) down (down)
I can't (I can't) set 'em (set 'em) down (down)
I can't (I can't) set 'em (set 'em) down (down)

Here I stand before your throne
Knowing you can see my every need
Here I stand before your throne
Help me to release my selfish thoughts

Here I stand before your throne
Knowing you can see my every need
Here I stand before your throne
Help me to release my selfish thoughts
Lead me home

Here I stand before your throne
Knowing you can see my every need
Here I stand before your throne
