### "Autumn"

Visit "[Autumn](#)" on [MotoLyrics.com](http://MotoLyrics.com)

You could search the whole world over  
But you'd never find  
A girl so easy to fall in love with  
But so hard to get off your mind  
I knew the first day that I saw her  
I'd soon be living my life for her

CHORUS:

Autumn, Autumn (Autumn)  
How your name has touched my heart  
Autumn (stay beside me), Autumn (close beside me)  
Say we'll never part

She's so completely different  
From other girls I have known  
She does the things you'd expect her to do  
But in a way that's all her own  
You don't know what she does to me  
When she's makin' love to me

(chorus)

I thought I had life down pat  
Love 'em, leave 'em & be on my way  
(Love 'em, leave 'em)  
But girl, since you gave your love to me  
In your arms is where I'll stay

(repeat chorus & fade)
