All fall down  
All fall down  
All fall down

I used to wake up at night  
Feeling so lonely  
Before I knew you really loved me  
I used to cry in my sleep  
Tears on my pillow  
I didn't know you wanted to know  
Now you changed my world I'm wondering  
How to keep myself from falling over  
You're a special boy, my baby  
And when you touch me...

All fall down  
Does it have to make me feel that way?  
It's pickin' me up to the highest  
Love I've ever known  
All fall down  
I'm dizzy when I think of you  
If ever a star was the brightest  
You know you can lead me home

Higher...  
Higher, yeah...

I used to be so unsure  
Afraid I'd discover  
You'd want a friend but not a lover  
But there's no fear in my mind  
'Cuz now we're together  
Our love keeps growin', bigger, better  
I could jump for joy, you sweet thing  
See me walk on air, and people staring  
They're looking at a mystery  
And when, when it's not really...

All fall down  
Does it have to make me feel that way?  
It's pickin' me up to the highest

Love I've ever known  
All fall down  
I'm dizzy when I think of you  
Wherever you go, I'll follow  
'Cuz you can lead me home

Higher...

You're making me dance, make me sing  
Anything as long as you are here with me  
I've found I can't touch the ground  
You know you make my inhibitions  
All fall down...

All fall down  
Does it have to make me feel that way?  
It's pickin' me up to the highest  
Love I've ever known  
All fall down  
I'm dizzy when I think of you  
If ever a star was the brightest  
You know you can lead me home

All fall down  
Does it have to make me feel that way?  
It's pickin' me up to the highest  
Love I've ever known  
All fall down  
I'm dizzy when I think of you  
If ever a star was the brightest  
You know you can lead me home

Love I've ever known  
Baby, Baby!
