[Spoken intro]

You don't get mad, you just get even
There's something I didn't mean to do
You just go on different directions
It happens
It happens to be true

But don't be sad
Don't even get angry
I still believe that we can see it through
Just don't forget
Everything you give you get
And in a while, it all comes back to you

You wanna rock my world
'Cuz I'm rockin' yours
I would pay those odds every time
You got to know how to dance
Before you come to the floor
Now that's the botom line

But baby, don't let that guy
Start making you jealous
He knows by now while I'm not free
And baby, I'll bet my heart
When you go out with the fellas
That you would do the same for me

You wanna rock my world
'Cuz I'm rockin' yours
I would pay those odds every time
If I didn't know how to dance
Until you get me on the floor
Baby, that's the bottom line
You wanna rock my world
'Cuz I'm rockin' yours
That's all I would hope for
Just stay in love with love
And I'll keep an open door
That's all I ask, so don't keep score

Just rock it
Ah! Enh, ah! Enh!
Eh, now rock my world
Ah! Enh!
Oooo-oooh

Everybody needs some that can feel love from
And I'm glad I'm feeling it from you
When it comes for love
I found the reason why we can continue
As it leads you on

You wanna rock my world
'Cuz I'm rockin' yours
I would pay those odds every time
If you got to know how to dance
Before you come to the floor, hey
Remember, let's not keep the score
You wanna rock my world
'Cuz I'm rockin' yours
That's all I would hope for
Just stay in love with love
And I'll keep an open door
That's all I ask, so don't keep score
Come on, rock my world

Rock my world
'Cuz I'm rockin' yours
Hey-ey-ey-ey...
You got to know how to dance
Before you come to the floor
Baby, that's the bottom line
You wanna rock my world
Rockin' yours, come on
That's all I would hope for
You got to know how to dance
Before you come to the floor
Now that's the bottom line

You wanna rock it, rock my world
Rockin' yours, come on, ha
That's all
You got to know how to dance
Before you come to the floor
Remember, remember, let's not keep score
Rock my world (you wanna rock it)
Rockin' yours ('cuz I'm rockin' yours)
That's all I would hope for--
Just stay in love with love...
