Give us this day
our daily dead
keep it in the news
'til the ban's been lifted

when it's given a name
and it's given a face
it's easier to separate,
confuse and debase

Believe it now.
The information's true.
We will move on
with or without you.
Trespass ..
again and again
give us this day...
deliver us [x4]

Is this the present or the past
or the phantom's mask?
A vision of a vision
or the mirror smashed.
A second or a minute
or the hour that's past.
Catch it release it
flash flash flash.

Believe it now
The information's true
We will move on
with or without you.
Trespass...
again and again
give us this day...
our daily dead
