This world's a tortured place to be
So many things to torment me
And as I stumble down this road it takes a toll
These days and nights I turn to You
No human hand can pull me through
No cosmic force or magic brew will ever do
But I can see it coming
You're not so far away
'Cause I can feel Your power
Surging through the whole of me

God is there and He is watching
He tells me all is well (supernatural)
God is there, there's no denying
supernatural (supernatural)
Supernatural

Beyond this physical terrain
There's an invisible domain
Where angels battle over souls in vast array
But down on earth is where I am
No wings to fly, no place to stand
Here on my knees I am a stranger in this land
I needed intervention
A touch of providence
It goes beyond religion
To my very circumstance

God is there and He is watching
He tells me all is well (supernatural)
God is there, there's no denying
supernatural (it's supernatural)

God is there and He is watching
Signs are everywhere (Signs are everywhere)
God is there, there's no denying
supernatural (it's supernatural)
Supernatural

Six days, the universe was made
Supernatural

And from the dead a man was raised
Supernatural
They say He walked across the waves
Supernatural

And I'll believe it to my grave
But I can see You coming
You're not so far away
'Cause I can feel Your power
Surging through the whole of me
[check, check, check]
God is supernatural
[check, check, check]

God is there and He is watching
Signs are everywhere (supernatural)
God is there, there's no denying
supernatural (supernatural)

God Said
God is here, god is now
Everywhere(God is everywhere)
God Said
God is here, god is now
God Said
Supernatural
