Chorus

Something to say  
Something to do  
Something I wanna say to you  
Something I wanna say  
But I just can't get it right

We stayed up light last night just talking  
And I wonder if you are listening  
Or do you even care  
When night has turned to day  
And everything is still the same  
It's clear we won't get anywhere from here

Chorus

It's pathetic  
You dont' get it  
I've told you so many times  
I dont' feel like this will ever end  
Everything I say and do  
Is misunderstood and misconstrued  
So don't take anymore of my time
