End of the world's coming
Because I broke your heart
End of the world's coming
Before I got a start

End of the world's coming
Because we've gone to far
End of the world's coming
'Cause I thought I was a star

End of the world's coming
And I've forgotten to confess
Now they've saving all the rest
Good Mary bless my soul now

'Cause you know God the best
You know God the best
And you know God the best

And I can see it coming
Moods are growing dark
TV says it's not coming
But we know who they are

End of the world's coming
'Cause I use it everyday
End of the world's coming
'Cause I scuffed my shoes that way
