Crosstown the same old story,  
How she cryed and left me with Glory,  
Someone I couldn't live without.  
We need a break, some changes,  
Different tastes of anything  
To start again

For us to find  
another day,  
another way,  
better than this

My town it's so boring,  
Since she left, left me with Glory,  
someone I couldn't live without.  
And, It's so much easier when angels start to sing,  
Sadness disappears,  
Everything turns clear

For us to find  
Another day,  
Another way,  
Better than this

And we should be holding onâ€¦Overcome the past

For us to find  
Another day,  
Another way,  
Better than this
