She looked up in the noonday sun, said, "Fighter jets  
are so unreal"  
But we've got a job to be done, come on

When I was just a boy, I saw the kings of the big gold  
cities  
But as they died I dried up inside -- let's ride

Let's ride on airplanes and buses  
Let's ride to the end of the line  
Let's ride on fast motorcycles  
Let's leave the routines of living behind

We pulled into a tick-tock town and all the people  
looked so happy  
Another trip down the elephant slide -- let's ride

Let's ride on subways and steeples  
Let's ride to the end of the line  
Let's ride on prescriptions and bottles  
Let's leave the routines of living behind

[Let's ride on airplanes and buses  
Let's ride to the end of the line  
Let's ride on fast motorcycles  
Let's leave the routines of living behind]
