Music is rhythm and rhythm is life.  
Let me take you to another dimension  
Of music and light

Music controls your body  
Get on the floor, let's move this party  
Do it, you know you should  
I hope I'll make myself understood  
Come on and feel the vibration  
My voice takes you through the whole nations  
Stop, I didn't say that.  
This is the sound that makes you jump  
Pump it, pump it, pump it up  
You're straight to the top. Don't let it stop  
You wanna get down so listen to me  
With the B, double O to the G.I.E.  
Rock it, rock it, rock it up  
Feel the heat and beat the clock  
Smooth and take it from the top

I wanna hear the music, gotta have the music  
I wanna hear the music all night long  
I gotta have the music, wanna hear the music  
I gotta have the music all day long

I need music, any kind of music.  
We need music all the time  
I need music, any kind of music.  
We need music all the time

Groove, don't let it go.  
You got no options, start to show  
Time is on your mind.  
Pick up the beats and catch the rhyme  
Do it, move to the beat  
Turn up the volume. Get up and let's freak  
....., I didn't mean you.  
....., let it all out  
Move it, move it, move it up  
People don't stop. Just reach for the top  
Listen to me and open your mind

I'm the one, the one of a kind. Turn it, turn it, turn it on  
We love music. That ain't wrong  
Busy, busy like a bee. Come on girls, just sing for me
