I got a bee in my bonnet and it's spinning me around
Because it's your love written on it
And it is taking me right down
I don't think I can take it'cos it is buzzing so so loud
This bee in my bonnet ooh I like it baby
What a wonderful sound

*I wanna be where you are now
Because I am wanting you so near
And if I could be where you are now
Then I know that I would feel no fear

I got a bee in my bonnet and it's spinning me around
It's got love written on it and it's taking me down
I don't think I can take it'cos it's buzzing so loud
This bee in my bonnet what a wonderful sound!!

I got a bee in my bonnet and it's buzzing out your name
Because it's got your love written on it
And it is buzzing right my way
I don't think I can take it'cos it is carrying your flame
This bee in my bonnet ooh I like it baby
What a wonderful game

*Repeat

I got a bee in my bonnet and it's buzzing our your name
It's got love written on it and it's coming my way
I don't think I can take it'cos it's lighting your flame
This bee in my bonnet what a wonderful game!!
