To cover up the crimes and lie
Smart bombs, precision guided armament
A more sophisticated way to end up dead
Still we search and invent such intelligent weapons
That kill each other like the Gears of War
Hoo-rah!!!

If you ride with thieves, then you die with thieves
Cross my heart and hope that you die, that you die!
When the smoke has cleared, the devil's in the mirror
And you see his warheads paint the sky, now you die!
Smart bombs, precision guided armament
A more sophisticated way to end up dead
Still we search and invent such intelligent weapons
That kill each other like the Gears of War
Hoo-rah!!!
