

## **Gees Bee**

### **"After Dark"**

Visit "[After Dark](#)" on [MotoLyrics.com](http://MotoLyrics.com)

There not anything I would not do to ease your troubled  
mind

Where you are , there is a different feeling

I wake up , I'm on the ceilin' , opens up your eyes

What a shape ! Someone you can't forget for any time

Oh , let me show you mine , immediately

After dark where the lights start fading sweet and low

I wanna be there , I wanna be there

We leave immediately

After dark where the lights start fading sweet and low

I wanna be there , I wanna be there

We leave immediately

After dark

There is no limit that I would not go

if I could lie beside

Where you are , there is a different out there

Love in the jungle can be hard to realize

What a shape ! Someone you can't forget for any time

Oh , let me show you mine immediately

After dark where the lights are fading sweet and low

I wanna be there , I wanna be there

We leave immediately

After dark where the lights are fading sweet and low

I wanna be there , I wanna be there

We leave immediately

After dark

(break)

There is not anything I would not do to ease your  
troubled mind

Where you are , there is a different feeling

I wake up , I'm on the ceilin' , opens up your eyes

What a shape ! Someone you can't forget for any time

Oh , let me show you mine immediately

After dark where the lights start fading sweet and low

I wanna be there , I wanna be there

We leave immediately

After dark where the lights start fading sweet and low

I wanna be there , I wanna be there

We leave immediately

After dark

(repeat last verse and fade out
