I am such a lonely boy looking for someone to love
And when I find someone to love
I'll be happy

You are such a lonely girl looking for a lonely boy
So won't you fill this heart with joy
And I'll be happy too

I'd like to give my heart a chance for romance for two
I'd like to give my heart away
Let me stay by you (stay by you)

And then I'll be a happy boy
And I'll have someone to love
And my love is ev'rywhere
'cause I'll be happy too

(break)

I'd like to give my heart a chance for romance for two
I'd like to give my heart away
Let me stay by you (stay by you)

And then I'll be a happy boy
'cause I'll have someone to love
And my love is ev'rywhere
I'll be happy too
I'll be happy too
I'll be happy too
