You're gonna fix my heart

You're gonna free my soul

Not many learn what

The two of us can do

Or what we do it for

Sign my name

I'm gonna join your club

You give me love and there's

Two of us to feel

Just say the word

And I'm giving my love to you

(CHORUS)

You got me backtafunk

And I'm still turning

Got me backtafunk

And I'm still turning

I can't explain, no alibi

The rhythm got me paralyzed

You got me

You call it deja vu

Of being there before

So many lose what
The few of us can find
And never mention
You're gonna break my will
You're gonna take me down
So many pay
When the two of us can steal
So give what I want
And I could be a king for you
You got me
Backtafunk
And I'm still turning
Got me backtafunk
And I'm still turning
You got me backtafunk
I was so disorganized
Rhythm cut me down to size
You got me
Help me I'm in trouble deep
High as I can go
It's no crime
There may be love on the street
And I'm bad enough
You got me drowning in my sleep
But I will find you when I wake

And it's time

You got me backtafunk

Backtafunk to back

Backtafunk

Backtafunk to back

Backtafunk

Backtafunk to back

Backtafunk

Oh, oh I'm still turning

Backtafunk

Oh, oh I'm still burning

Backtafunk

Oh, oh I'm still learning

(Repeat through fade
