"Coalman"

Visit "[Coalman](#)" on MotoLyrics.com

I tell my troubles to the coalman
He's a coalman but he understands
He's not such a very very old man
He's a soul man and he takes my hand
He makes a man feel good when he's down
Head is touching the ground
He's going to help you if he can
He's a coalman
I've been waiting for the coalman
He's a whole man and he treats me nice
Ev'rybody needs a coalman
When you're low man , you can get advice
He makes a man feel good when he's down
Head is touching the ground
He's going to help you if he can
He's a coalman
I need her loving so much the feeling is too much to
bear
You've got to have somebody, when she's not there
I tell my troubles to the coalman
He's a coalman but he understands

He's not such a very very old man
He's a soul man and he takes my hand
He makes a man feel good when he's down
Head is touching the ground
He's going to help you if he can
He's a coalman
I need her loving so much the feeling is too much to
bear
You've got to have somebody when she's not there
I tell my troubles to the coalman
He's a coalman but he understands
He's not such a very very old man
He's a soul man and he takes my hand
He's gonna help you when he's down
When your head is touching the ground
And he'll help you if he can
He's a coalman
Coalman, coalman , coalman,,(repeat/fade
