Ah..... Ah....

We may be big or small or black or white , eternally

And black and white is you and me in a special light

We may be young or old or in between ,but this much I  
know

Together we can learn to grow

In a world that's ever turning it's back on you

If you give it all away ,

make it mine ,ine , ine , ine , mine

You are desire , ev'rything you need

I give you right or wrong

And you are the woman that I

base my whole existence on

And when I get to you my

desire is glowing in your light

These are the golden years we get to live

we lead the way , tomorrow we can start today

in a special light

Love could be good or bad or in between

but this much I learn

Baby , you and I can learn

In a world that's rearranging it's reality

If you give it all away

make it mine , ine , ine , ine , mine

You are desire , ev'rything you need

I give you right or wrong

And you are the woman that I

base my whole existence on

And when I get to you my

desire is glowing in your light

Ah...

And it's nice to light a fire

when it's cold outside

If you give it all away

make it mine , ine , ine , ine , mine

You are desire , ev'rything you need

I give you right or wrong

And you are the woman that I

base my whole existence on

And when I get to you my

desire is glowing in your light

(repeat last 3 lines of last verse and fade out )
