Don't you go , I need your love
Don't you go , I need your love
Don't you go , I need your love
Need your love

Comes the dawn I lie awake
Dreaming thoughts of you
But I hope that all my thoughts
Never will come true
Never will come true

Don't you go , I need your love
Don't you go , I need your love
Don't you go , I need your love

(break)

Don't you go ,I need your love
Don't you go ,I need your love
Don't you go , I need your love
Need your love

If I die before I love
Promise to be blue
But I hope that all my thoughts
Never will come true
Never will come true

Don't you go , I need your love
Don't you go , I need your love
Don't you go , I need your love
