Dark is the night

High is the fire

Touches the sky

Love with no shape or form

I am in your mind's eye

Just let your dreams run wild

Somewhere, out across the nation

Someone, waiting in the shadows

Listen, I don't wanna hear

Return to, sender

Calling, I can see the future

Someday, signal with a single motion

Show me you believe in someone, somewhere

Oh baby you, you give, me

You give me the runaround

Just another night, with, you

You're on my mind

And we got love

And love'll take you higher and higher and higher

Higher and higher

(CHORUS)

E.S.P

I communicate with you

Tell me what it means to feel

What am I supposed to do

E.S.P

Nothing any words can say

Nothing that we know is real

But it'll take your breath away

Your breath away

Danger, suddenly an early warning

Suddenly the soul is burning

But I still believe in someone, somewhere

Baby you, give, me

You give me the runaround

Just another night with you

I'm in your mind

And we got love

And love'll take you higher and higher and higher

Higher and higher

E.S.P

I communicate with you

Tell me what it means to feel

What am I supposed to do

E.S.P

And love'll take you higher and higher and higher

Higher and higher

Be prepared to make your sacrifice, tonight

Far beyond the point of no return, oh no

And we got love

And love'll take you higher and higher and higher

Higher and higher, higher and higher

(Repeat Chorus
