Animal stalking you at night

I'm a sucker for someone

And I got the prey in sight

Lying on your bed of leaves

In the modern times

You forget and let your spirit breathe

Capture me my blood is red

Another victim of your ritual

For you my skin is shed

Ecstasy ain't what you find

In the modern world

One flick of my tongue

changes the meaning of the word

And you say

That's impossible

It's not impossible to do , oh

And you can digest what I can see

The taste of you can be

I don't wanna get eaten alive

'Cos you're so dangerous

No more hearts I can trust ,you see

I don't wanna get eaten alive

To be eaten alive , eaten alive

I don't ever wanna be , ha,ha, eaten alive , uh huh

Now I got you on the run

The quicker my senses

And the chance is I'm the faster one

I know the universal law

Primeval times

With a little stimulation

It'll come once more

And you say

That's impossible

It's not impossible to do , oh

And you can digest what I can see

The taste of you can be

I don't wanna get eaten alive

'Cos you're so dangerous

No more hearts I can trust , you see

I don't wanna get eaten live

To be eaten alive , eaten alive

I don't ever wanna be , ha ha , eaten alive , uh huh

(break)

I don't wanna get eaten alive

'Cos you're so dangerous

No more hearts I can trust ,you see

I don't wanna get eaten alive ,to be  
Tie me to a tree , crawl all over me  
You can rip my shirt , drag me in the dirt  
I will be your slave , anything you say  
I don't ever wanna be , ha ha , eaten alive , uh huh  
(break)  
I don't wanna get eaten alive  
'Cos you're so dangerous  
No more hearts I can trust , you see  
I don't wanna get eaten alive  
'Cos you're so dangerous  
No more hearts I can trust , you see  
I don't wanna get eaten alive  
'Cos you're dangerous  
No more hearts I can trust , you see  
I don't wanna get eaten alive  
To be eaten alive  
Gotta do her , crawl all over me  
You can rip my shirt , drag me in the dirt  
I will be your slave , anything you say  
I don't ever wanna be , eaten alive
