"Evolution"

Visit "[Evolution](#)" on MotoLyrics.com

There's a law in what we do

We got a quest for something new

Everything you witness seems to

Let you down

If someone gets you from behind

I got an open mind

And you've been thirsty for the friend you found

Close your eyes and make a wish

I don't wanna mess with mother nature

Knowing that you're mine

You said I could see

You with another and we all get satisfied

(CHORUS)

It's a form of evolution

It's a kind of movin' on

An eternal source of pleasure

In being the one

When your love is for the giving

It's a case of destiny

You know we look for the same insane games

Got to be commital to be a little deviation

So I get all wound up inside
I can see your scene unwind
You dance together or you dance alone
And leave the real world in the air
Love it in leather I don't care
Everything is legal in the danger zone
Close your eyes and make a wish
Later we could cater to the animal
Knowing that you're mine
It's straight in my face
You and your lover and the brain is paralyzed

(CHORUS)

It's a form of evolution
It's a kind of movin' on
It's a cycle of emotion
In being the one
In the storm of revolution
What is done can be undone
You know we look for the same insane games
Got to be commital
To the subtle variations

(CHORUS)

It's a form of evolution
It's a kind of movin' on
It's a cycle of emotion

In being the one

If your love is for the givin'

It's a case of destiny

And you can find your source of pleasure

In being with me

(CHORUS
