Take me to your world of wonder

Let me come inside your room

Invisible

Now you see nothin'

Some investigation as to the state of us

No misunderstanding girl

On either side

I couldn't lie if I try any other way

I can't stop thinking of that girl of mine

I'm for the rise and the fall

Any other way and

(CHORUS)

Ohh

Ride on my ghost train

Ohh

You shouldn't do it, you shouldn't do it

Ohh

Ride on my ghost train

Ohh

Who can stop your past from rushing by

Born to live one million stories high

Into the night

Into the day

Take me to a town or country

Stranger in a strange land

And I'm an alien

No you can't find me

You be there at the station

When the train arrives

When it leaves I get my hands on you

I fool myself if I turn any other way

I still keep searchin' for that girl of mine

I'm for the hell of it all

Do it anyway and

(CHORUS)

Ohh

Ride on my ghost train

Ohh

Hearts can break and hearts can

Turn the tide

All is love and love is open wide

Ghost train

Ghost train

Into the night

Into the day
