Visit "[Gone With the Wind](#)" on [MotoLyrics.com](#)

I never knew until tonight of the danger.

That any man could lose his life to a stranger .

Catch me when I am falling

I've been burned by the fire before

And girl , I tell you no lies

I don't wanna feel the pain anymore

But I need you tonight

All of my trouble, my torture and tears

It's over for now - gone with the wind

But I need you tonight

So afraid of the past that you made me tonight

Gone , it's gone with the wind

I know that once upon a time , I'd surrender

And lovin' you was twice as nice , but not forever

And I got too much emotion

And then love has just cut like a knife

And you know , it tears me apart

Cause I don't wanna feel the pain anymore

But I need you tonight

All of my trouble, my torture and tears

It's over for now - gone with the wind

But I need you tonight

So afraid of the past that you made me tonight

Gone , It's gone

(break)

I tell you no lies .

I don't wanna be alone anymore

But I need you tonight

All of my problems, my torture and tears

Gone with the wind (you know I need you tonight)

But I need you tonight

All of my sorrows are fading and gone with the wind

You know I need you tonight ... (fade
