You been teaching me a lesson that I never learned  
You never make it through a lifetime without being  
burned  
Everything I ever thought you were - you turned out to  
be  
Since you gave your love to me

When I met you on a Monday  
My life has stood still  
I belong to every moment that your love can fill  
Let me be the only heart you mend  
Turn out the light and take it right to the end

Living with you  
In the madness of my mind  
In a world I could not find  
But you knew what to do  
Living with you  
There's a full moon on the rise  
There's a fire in your eyes  
And I was born to be

Loving you under my skin  
You're everything to me  
I could not love you more  
And you know that you are mine  
And that's what I'm living for

There will never be a question of somebody new  
I could make it through a lifetime with someone like  
you  
Let me be the only heart you mend  
Turn out the light and take it right to the end

Living with you  
In the madness of my mind  
In a world I could not find  
But you knew what to do  
Living with you  
There's a full moon on the rise  
There's a fire in your eyes

And I was born to be living with you
