You say you saw the dark side, baby
I know what gets you through the night
And love is like a red rose, baby
And so it's coming 'round again
If we can take the same direction
We find the road that never ends
'Cause love never dies
It goes on forever
Love never dies, love never dies
Love goes on forever
This is the love we've been talking about
You led her in 'till she couldn't get out
'Cause you made the little girl cry
No sad stories to deny
I go through the holy war for you, baby
You know, so you ain't got a prayer
I'll answer if you call for me, baby
I'm yours, to God above I swear
I only wanna live in the shadow you make
The soul that never lies
'Cause love never dies
It goes on forever
Love never dies, love never dies
Love goes on forever
You better run to the heart of the flame
She don't change like the sun and the rain
'Cause she don't understand why
You made the little girl cry
'Cause love never dies
It goes on forever
Love never dies, love never dies
Love goes on forever
This is the love we've been talking about
You led her in 'till she couldn't get out
'Cause you made the little girl cry
No sad stories to deny
You better run to the heart of the flame
She don't change like the sun and the rain
'Cause she don't understand why
You made the little girl cry
