Watching ev'ry day go by , living in a foolish game
Just the way I feel today
Living my life without you
Never hear a single word , living in a lullaby
Praying ev'ry tear I cry
Living my life without you
And ev'rywhere you go I fly (I love you with a special
feeling)
And darling till the day I die (baby never stop believing)
I'll be reaching out, I'll be reaching out , Ahh....
Reaching out (there's a woman goin' through me)
I'll be reaching out (got a chance to hold you to me)
Ahh..
Ev'rything is lonely and I need you
Living my life forever , forever

Watching ev'ry day go by
Living on the one I love
What I got is not enough
Living my life without you
And I believe in yesterday (yesterday was once
tomorrow)
With love, with love wide open ev'ry way(baby you're
the light I follow)
I'll be reaching out , I'll be reaching out , Ahh
Reaching out (there's a woman going through me)
I'll be reaching out (got a chance to hold you to me)
Ev'rything is lonely and I need you
Living my life forever
I'll be reaching out
I'll be reaching out
Reaching out
I'll be reaching out
Living my life forever

Reaching out , I'll be reaching out (repeat and fade)
