I just don't know what you can achieve
When you say you need me and then leave
Ev'ry thing you tell me is a lie
You and I just don't see eye to eye

Soon you'll run , there is no fun remaining
The life I once enjoyed you've surely taken
I'm convinced for years, I've been your clown
The heart I gave , well you have just forsaken

You are the worst girl in this town
You are the worst girl in this town

Ah.....

There are lots like you , that it's not true
I'd be a fool to stay and join the queue
You've stayed with other men behind my back
I know that if I stay , I'll surely crack

The life I once enjoyed you've surely taken
I'm convinced for years , I've been your clown
The heart I gave , well you have just forsaken

You are the worst girl in this town
You are the worst girl in this town

Ah.....

You are the worst girl in this town
