Watch what you say to that girl that I love
You best be true or I'll be seeing you
Don't tell her lies , say things to make her cry
I , I'll be there so you best beware

I love that girl, she is the girl
For her I would die
Don't fool around or I'll break you down if you try

You gotta watch what you say
Don't you dare hurt my love
I, I'm still the one
And I'll be here when you're gone

(break)

I love that girl , she is the girl
For her I would die
Don't fool around or I'll break you down if you try

You gotta watch what you say
Don't you dare hurt my love
I , I'm still the one
And I'll be here when you're gone

Oh,oh,oh,oh
