She's gone
I'm a victim of love
And I reach for her cry
There's no perception of time
She's out of my world and I'm alone
The city sleeps , she comes and she goes
She loves another one
And I got no chance, no time
Ain't nothing stops the rain but the sunshine
I can see nobody , tell me where my angel goes
I say the devil knows

I'm lost
No sky above me
No earth below me
Show me where tomorrow is and teach me to see
Someone else may cry for me , could be
Show me where tomorrow is 'cos I don't know
Show me where tomorrow is 'cos I don't know
Show me where tomorrow is

Suspicion
The lies on your lips and your tenderness
I lie in wait for the gift of her pain
She'll never be mine and I'm all alone
And through a stranger, lives can change
And hearts can overcome
But I need her face , so young
Ain't nothing stops the fire and it burns on
Too late now she tells me
We cannot live this lie
She came home to say goodbye

I'm lost
No sky above me
No earth below me
Show me where tomorrow is and teach me to see
Someone else may cry for me, could be
Show me where tomorrow is , 'cos I don't know
Show me , I must go on
Whatever the heart must take

I'll keep my love alive
And all you got is freedom
It ain't enough

I'm lost
No sky above me
No earth below me
Show me where tomorrow is and teach me to see
Someone else may cry for me , could be
Show me where tomorrow is , 'cos I don't know
Show me
