"You Are My Love"

Visit "[You Are My Love](#)" on MotoLyrics.com

We can talk it over
You are alone like me
I could feel when you arrived
There was nothing in your eyes
In your emotions

Never be another for I believe in you
Can there be trouble in the night
Am I fighting for the right
of your devotion

Don't take the lies that you heard
They don't mean a word
You are my love
I just can't let you of you
That my love won't ever do
Just like before

You are my love
Far beyond all space and time
Heaven let me call you mine
So if you wanna be , stay with me
I don't wanna be a shoulder you can cry on
Only make it like we were
We can ride on the stormy weather
There forever on earth

You are my love
I just can't let go of you
Born to be in all you do
You are my destiny , all of me

(break)

We can be an island
An island worlds away
Where love is written in the sand
And the stars take command
of our emotions
This is my message I cry
I won't let it die

You are my love
I just can't let go of you
Born to be in all you do
You are my destiny , stay with me

You are my love
I just can't let go of you
Born to be in all you do
Just like before

You are my love
Far beyond all space and time
Heaven let me call you mine
You are my destiny

You are my love ... (fade)
