Everglowing sparks of augury
The celestial walls of gold
Just a windkissed illusion
Aeons die behind my countenance
Withering they are, just like windkissed illusions
Moulder away, I'm feeling weak
Breathe the spheres of ever-sleep
Stigmatized under an ancient seal of blood
Unforgiven steps
Towards an astral dawn of war
Mirror to the unspoken words of yore
In woe to crave for evermore...
War-scrolls of the apocalypse
Face the bitterness
Fallen windkissed illusions
Carthatic depth unfolds in utter emptiness
When whirling stars have bestowed their
shapelessness
A crown, todbringender Seelenschein
A throne, unberuehrter Seelenstein
Frozen opaline eye...
Crush the seal of blood
Unlock the chamber doors...
Just let me cease in the cosmic cold
Child of the apocalypse
I am the witness, I am tragedy
I am the spectral void in the astral dawn
Child of the apocalypse...
