You told me you would always do me right, oh
When you said that you had to leave I thought I would

When I didn't have you right by my side
Now I'm Over You

[1] - Now I'm over You, I knew I would get over you
No matter how long it takes
Now I'm over you, I knew I would get over you
I wanna thank you for walkin' out my life

Remember when we made love at night, hmm, hmm,
hmm
Remember when you kissed and held me tight, oh ye-
yea-yeah

Remember when you promised that I'll never cry

That's why I'm over you, oh

[Repeat 1]

What about my pride?
What about my heart I gave to you?
What about the years I was blind.
What what about the times I picked you up when you
were down
But I guess it don't mean the same to you
That's why I can't get over you, whoa

[Repeat 1 (2x)]

For getting me over you, oh...
