Shaped like a coke bottle
Ladies so don't you be suprised
I go for both models
Babies turn me on

Shyne
Like my rolley bezzel
Fyne
Like this you have to take yo tyme
You deserve a medal
Mine
If I let you know that this fella right here
Is feelin you
Somthin special bout lil mama
Yeah you sexy and cute
Girl you ready
Apple bottoms
Yeah so let's say you the truth
Like my chevy you a problem
Still a show commin through
Hey
I wanna know you name
I wanna sho you thangs
I wanna see you get low while I give you dough
And fire to the flame
We step put in the rang
That's real ghetto fame
Surely I over due it for you
And not to be chevrole

[Chorus:]

Baby,
I can't keep my eyes off you
So hypnotized by the way you move
And I just wanna know
Baby what's your name
And maybe later on
We can go somewhere
Because lil mama
All I really wanna do it get with you
Yeah a-a

What's it gonna take [?]

[Verse 2: Gemini]

Hey... Hey
Tell me what I gotta do
I ain't like these other suckas runnin' game on you
I'm sure ya hear it all the time
But I don't spit lines,
I don't waste my breath shit... on all that mess
If I said it then I meant it
Not to try to get between ya
And I ain't gotta wow you,
To make you a believer
Some like to make it rain, yeah we can make it rain
Like JD once said, shit; money ain't a thang"
I ain't tryin' ta impress ya
Lil' mama you can tell what I got
An 'at don't matter, that don't matter
We can get it poppin'
Like these champaign bottles
And don't be playin' hard to get
It'll only make me try harder
Come on

Baby,
I can't keep my eyes off you
So hypnotized by the way you move
And I just wanna know
Baby what's your name
And maybe later on
We can go somewhere
Because lil mama
All I really wanna do it get with you
Yeah a-a
Tell me what it's gonna take
To get with you

[Verse 3: Lil Rob]

Chea
How can she lose
With what she use
And the way she moves
I love the way your bodies so smooth
I love the way she flows to the grove
And now she keeps lil rob in the mood
Chea
All it took was one look in her eyes
And I was hypnotized
Get them swirls in my eyes
When this gurls in my site
Had the site dynamite
Such a site to see to me
The only girl I wanna bite
Cause I like it
You make me delighted
To get you exited
Keep you ignited
You must be the baddest thing I've ever seen
I think I seen you in my dream
Or maybe it was a magazine
I don't really know
But I get exited
With you and your anatomy

Baby,
I can't keep my eyes off you
So hypnotized by the way you move
And I just wanna know
Baby what's your name
And maybe later on
We can go somewhere
Because
