Cheated.  
You don't get what you think you deserve.  
Coma.  
Devour everything to deaden the nerve.

Gotta cut a profit even if I cut a throat... [x4]

Perish.  
All that you build, will be destroyed.  
Stolen.  
All your value will crumble to void.

Nice guys get crucified gotta find a scapegoat... [x4]

[[White. Black. Gray. Red.]]  
Status.  
Wither away inside your golden cage.  
Victim.  
Spend more, bury the rage.

Wanna get a pay raise to justify my worth... [x4]

[[White. Black. Gray. Red.]]

White is the colour of purity.  
Black is the colour of execution.  
Gray is the colour of urban bland.  
Red is the colour of revolution.
