"New Day"

Before the light I found the dark
Before tonight I fell apart
Frozen up I've realized
That something's gotta change
It took a crash to understand
Time kept slipping through my hands
I never used to know
The sun will shine after the rain

Chorus:

" Say goodbye, say goodbye to the way I was before
Say hello, say hello to a new way
I was lost, but I found what I was looking for

Waking up, waking up to a new day
To a new day"

I was sleeping in a twisted dream
Dying just to make believe
A pretty situation was far from where I was
But I'm not up for giving up
Lying down and out of luck
My mistakes are in the open, and now I'm finally
coming clean
