"I See You"

I see you when I slip around the ground not well I'm
weak

I see you everywhere, give you love, give you share

I see you, I see you, I see you, I see you

I see you when I slip around the ground not well I'm
weak

I see you everywhere, give you love, give you share...

I'm going down the street and I know exactly what I see

I see in every face, looking for a special place

There isn't feeling me, I'm feeling it so strong, so free

I reach, I fly your hand and what you want I wanna stay

Get on the floor, non-stopping

You got to feel it, you baby

Don't free the love and show what you got

Not cool, be high, get ensy, get busy

Not to move to you get busy

Come on in the party, please don't chop

Dee jay, turn it on

I'm going down the street and I know exactly what I see

I see right in your face and sure I know and that's my
place

I see you when I'm sleeping and you're around me

when I'm wind

You are the secret of my heart, no matter, let us stop
