Wish I could forget your name, your face  
Your smile, your sweet embrace  
You're makin' it hard for me  
The days seem long, the nights seem cold  
Wish I could relive  
The times you made me cry, you made life  
Hard for me, it's killin' me  
I don't wanna miss you no more...No  
You're the burden on my head, and you're makin' it

Hard for me, it's killing me  
I don't wanna miss you no more...No, No  
Bet you thought I would forget  
Those times I was alone upset

Every day without you I would cry  
Thinking you were by her side  
You're making it hard for me  
The days seem long, the nights seem cold  
Wish I could relive  
The times you made me cry, you made life

Chorus  
Bridge repeat

You crucified me for all I did wrong  
You lied to me for what was far and beyond  
If you were here I'd tell you to your face  
You're an absolute disgrace

Chorus outro
