Its time to break up the ways
That we deny and hate!
This time we tear up our veins in pain.
Its in our hands, It will bleed
We can control this heat
This is a pact we agreed to eat
We are of tears and of joy
The devils own decoy
We are his personal toy
We all just want to be free
And fill the earth with seed
This is our land, we will breath

Rise
Now you decide
If you live or you die
If you live or you die!

Shine
Now we ought to shine
Now we ought to shine
And to break out of line

There are some things you should see
And it's inside of me
Yeah I just wanna be free
Beauty beats the brain i can see
And that's my enemy
Is there a place I can be?
I'm getting tired of grace,
It's not what I contain.
I'm just but gain in the brain
I hate that I am constrained
Release me from this chain
I am the Alpha Of Pain!

Fight
Now you decide
If you stand up and fight
If you stand up and fight
Light

Now we are the light
Now we are the light
Who will break out of line?

Fighting our way to make it here
Another day!
Fighting our way to make it here
Another day, Learn to Break!
