

## Faceless, The "Legion Of The Serpent"

Bring forth the commencing days  
An infernal saurian nemesis appears  
The keepers of Earth  
Inferior minions of draconian descent  
Enforcing the rules of the ancient covenant  
Blazing orb of the sun  
Beating on a helpless Earth  
The serpentine order shall no longer hide  
The dimensional doors brings the gods to their side  
Warm-Blooded sacrifice to appease  
the thirst of the creatures who've hidden for so long  
A servant of the omni-dimensional  
Tall and strange bloodthirsty sentinels  
Sent to possess the hybrid creation  
Dimensional domination  
Keepers of the doorway between worlds  
Patrons of destruction  
Planters of ignorance  
Breeders of malevolence  
Sorcerers of possession
