

Faceless, The "Sons Of Belial"

Visit "[Sons Of Belial](#)" on MotoLyrics.com

The prehistoric golden age of man
A unified energy of infinite expression
The harmony of one challenged by the temple of the sun
Divine taste of innocence crushed by immortal jaws
Victims of ritual seduced by the sun
Offerings of sacrifice presented to the gods
Dimensions intertwine bringing forth the struggle for dominion over Earth
The turmoil of the gods manifests a global decimation
No longer unified
Mankind bows before the temple of the sun
Widespread lies
The womb in which to catalyze the epoch
A global catastrophe
A disruption of harmony
Bringers of misery
Insurgence in the name of depravity
