Same thing, dry day, planned out, all day

A virus that spreads, it won't go away

Get up, get out, go there, come back

Spontaneous action? Heck, what's that?

Go slow health nuts buckle up you should talk

Why do these people sit and gawk?

Don't smoke robots use those cross walks

Forget that man you only live once

Who are they to make these rules up

Democracy where was the vote at?

The hippies got control, it's mellow

My face is turning into jello

We need a change of pace in style

Let's put this place on the spin cycle

Historic influence, no pity

Fuck what they did in the sixties

I don't need it they can have it

I don't want it they can keep it

They're in charge now, let me off now

I won't follow you, don't teach me how

Media follow ups catering to the teens

Intercourse and guts on the drive in screens

They all think I want to be just like them

"One of these days he'll try and fit in"

Sit there stay here your friends are near

Look at the mass, look and jeer.
