I view life from the top  
Always believing  
In dreams inside my heart that I was reaching  
When I wished upon a star a pot of gold was never far  
always

I acted like a fool  
thinking I had made it  
To hide my loneliness I had to fake it  
but at last I saw the light  
when you came into my life  
Making all my feelings overflow

Now in everything I view  
there you are  
And my greatest wish  
Is to hold you in my heart  
I feel your spirit lifting me  
that special gift is all I see is true  
everywhere I look there's you

If the whole world comes apart  
It starts to shatter  
And we lose everything what does it matter  
And if you stay with me  
that's all I'll ever need  
You're the one who gives me strength and hope for  
tomorrow  
now in everything i do  
there you are  
and my greatest wish  
is to hold you in my heart  
I feel your spirit lifting me  
that special gift is all I see it's true  
Everywhere I look there's you

Say you'll always stay beside me  
Tell me you'll love me forever and ever  
sharing life together!

And in everything I do

there you are  
And my greatest wish is to hold you in my heart  
I feel your spirit lifting me  
that special gift is all I see is true  
everywhere I look there's you

I feel your spirit lifting me  
that special gift is all I see is true  
everywhere I look there's you
