Have you evr felt you should be running away
Have you ever felt like you were always to blame
Nobody Listens
Day after day its the same

O Oh O Oh

And Then You Couldn't gone it inside
That makes you just want to get up and fight
Well that's how i felt
The day that i left you behind

Do you remember?
You said i got it all so wrong
That i could never be someone
You said that i was just a little girl who doesn't know

O o o

You always shut me up
Put me down
Betcha feelin' stupid now
My lifes moving on and your still waiting
Its funny how, The stories turned around

Look At Me Now

Its a shame you could'nt open your eyes
And see it then but baby its no surprise
Cos' You were always the big man
Always So Full of asvise

O Oh O Oh

Do You Remember?
You said i got it all so wrong
That i could never be someone
You said that i was just a little girl who doesn't know

O o o

You always shut me up
Put me down
Betcha Fellin' Stupid now
My lifes moving on and your still waiting
Its funny how, The stories turned around

Just Look At Me Now

Look At Me Now

You Said i got it all so wrong
That i could never be someone
Your said that i was just a little girl who doesn't know

O o o

You Always try to put me down
I betcha feelin' stupid now
Cos' I could Fed Up, Got Up, Got Out
And I'm turning around

Look At Me Now

Just Look At Me Now

Take A Look At Me Now

Look At Me Now

You always shut me up
Put me down
Betcha Feelin' stupid now
My Lifes Moving on And still waiting
Its funny how the stories turned around

Just Look At Me Now
